Lake Health's TriPoint Medical Center and West Medical Center

Earn Highest Grade for Patient Safety in Leapfrog's Fall 2015 Hospital Safety Score

Lake Health's TriPoint Medical Center and West Medical Center have been honored for their commitment to patient safety by being awarded an "A" grade in the Fall 2015 Hospital Safety Score released by independent hospital watchdog The Leapfrog Group. The report rates how well hospitals across the nation protect patients from preventable medical errors, injuries, accidents and infections.

The Hospital Safety Score—the gold standard rating for patient safety—is compiled under the guidance of the nation's leading patient safety experts and administered by The Leapfrog Group, a national, independent nonprofit. The first and only hospital safety rating to be peer-reviewed in the *Journal of Patient Safety*, the Hospital Safety Score is free to the public and designed to give consumers information they can use to protect themselves and their families when facing a hospital stay.

"Our 'A' grade reflects the tremendous collaboration among our physicians, nurses and team members to cultivate a culture of zero harm when it comes to patient safety," said Cynthia Moore-Hardy, FACHE, president and CEO of Lake Health. "It also affirms our commitment to best-practice standards of care and ongoing quality improvement to ensure we excel in all aspects of patient- and family-centered care."

To see TriPoint and West medical centers' full scores and to access consumer-friendly tips for patients and loved ones visiting the hospital, visit www.hospitalsafetyscore.org or follow The Hospital Safety Score on Twitter or Facebook. Consumers can also download the free Hospital Safety Score mobile app for Apple and Android devices.

Big Brothers Big Sisters

When people think of mentoring programs, they think of Big Brothers Big Sisters. For more than 100 years our mentoring programs have provided children with a positive role model and friend that have helped improve their lives. Our experienced approach to recruiting, screening, matching and supporting our mentoring relationships has become an industry model; and has resulted in thousands of lasting relationships, and helped change the lives of young people across the country.

Big Brothers Big Sisters of Northeast Ohio is seeking men and women over the age of 18 who live in Lake, Geauga and Ashtabula counties to volunteer as Big Brothers and Big Sisters. Our need for male volunteers is great. Volunteers spend 2 or more hours each week with their Little Brother or Sister on a one-to-one basis. The volunteer and their little plan their own activities, depending on their interests. If this is something that interests you, please visit our website at www.bbbsneo.org or contact Shannon Majewski today at 440-352-2526.

Businesses who partner with Big Brothers Big Sisters of Northeast Ohio have found an effective and visible way to invest in the communities in which they do business. Partnering with Big Brothers Big Sisters has been proven to make a measurable, longlasting impact on our local schools and communities and the kids in them. But, it's also a very smart business decision, one that can have a tangible benefits and a positive impact on you company. There are many different sponsorship opportunities throughout the year for your business to support. Please contact Samantha Jones at sjones@bbbsneo.org or 440-352-2526 for more information on ways to sponsor!

CLASS ACTIONS TO *PROTECT* SMALL BUSINESSES? By Patrick J. Perotti

Rather than being an enemy of business, recent class actions have become protectors of small business against the government and mega corporations. Class actions are used when a wrongdoer, such as a government entity or multi-national corporation, commits the same wrong against a large group. But it doesn't have to be a group of people. It specifically can be a group of businesses.

For example, in 2006, a small jewelry company brought a class action against airfreight companies for overcharging them and tens of thousands of other businesses for "fuel surcharges" and other alleged costs, in violation of the United States antitrust laws. The class action was a perfect example of small businesses being victimized and cheated by larger companies or the government. The case was settled for the benefit of tens of thousands of small companies for over \$320 Million.

In another recent case here in Ohio, our firm sued the Bureau of Workers Compensation for overcharging over 300,000 small Ohio businesses for their workers compensation premiums for more than eight years. Finding that the class action law allowed class action protection for small companies, the case was aggressively litigated and the small businesses won at trial and in the court of appeals. The courts held that the government had intentionally violated the law and had overcharged premiums. This class action resulted in a settlement of more than \$400 Million for the benefit of more than 300,000 small Ohio companies hurt by the overcharges. Some readers of this bulletin likely have small companies which received the benefit of that class action.

The defendants in class actions are never small companies—small businesses don't have enough transactions for a class action. The defendants are the giants in business and government. Whether they have cheated customers, shareholders, or other businesses, class actions are to make sure those victims are protected and that wrongful conduct is stopped. If your company has been the victim of wrongful conduct that you think might involve many other businesses, feel free to give us a call.

Patrick J. Perotti is an award winning national leader in the fields of consumer class actions, employment discrimination, and wage and hour litigation. With verdicts and settlements exceeding \$600 million dollars, Patrick is regularly selected to lead class suits in Ohio and around the country. His reputation developed from a demand for outcomes which not only offered compensation to class members but also stopped unlawful government and corporate practices.

Using the class action device to achieve deterrence, he has directed more than \$25 million in unclaimed class funds from his settlements to charities and non-profits around the country. The bench, bar and community have recognized Mr. Perotti's legal and community accomplishments with the National Trial Lawyers

Top 100 Award, the defense bar's Top 75 Plaintiff Trial Lawyers in the United States, the Ohio State Bar Association's highest honor, the Ritter Award, and his alma mater Marshall College of Law's highest honor, the Alumnae of the Year Award. As a frequent lecturer at state and national conferences on class actions, employment law, and the cy pres doctrine, Patrick is regularly consulted by the bench, bar and media on those subjects. His interviews and commentary are found in countless websites, newspapers, and local and national radio and television shows.

AWT Looking for Mentors for Junior Bots Program

Fourteen Middle Schools from Geauga and Lake Counties are participating in the 2016 AWT Junior Bot Pilot Program. The AWT Junior Bot (Middle School) Pilot Program is intended to raise manufacturing career awareness at a younger age. AWT is seeking 14 Manufacturing Mentors/Volunteers to partner with a Lake or Geauga County Middle School for in-person and/or virtual real-life STEM sessions from mid-January through early April.

- Who can mentor? Any representative from your manufacturing company can mentor. A mentor should be someone who likes to teach. Perhaps someone from your company has a middle school student attending one of the participating schools.
- What are the requirements? You'll provide real-life manufacturing education from the manufacturers' perspective and serve as the EXPERT answering the students' questions. This is a time to engage both the students and teachers! You'll provide information on what manufacturing is, what your company makes and how it is used, and how robots are used in the manufacturing process.
- How long is the time commitment? The time required is minimal: two or three, 30- to 45-minute. in-person (at the middle school) or virtual (Skype, FaceTime) sessions that are mutually agreed upon by the by all parties involved. Company tours are encouraged as well!

The only cost to your company as a Mentor is the sharing of your time and knowledge. Can we count on you? If you are interested in this rewarding opportunity, please contact Toni Noday-Krager at awt@ThinkMFG.com.

NEWS FLASH!!! AWT Executive Director, Toni Noday-Krager, and AWT Board Member, Jennifer Weinbrecht, VP Compliance at Component Repair Technologies join Ohio Department of Higher Education's State Wide Initiative: Manufacturing Careers & Education Marketing Strategy. This initiative is expected to increase Manufacturing career awareness, standardize MFG career pathways and streamline MFG education. Read more about this important initiative here.
